DISCUSSION:

• Summer projects identified along with the timeline –they are on time to be completed

It just shifts \$1,000,000 of tech to M&O

- Proper use of \$1M donation for Rec Park= batting cages & locker rooms and areas
- Foothills pipes undersized needs replacing
- Projects at WHS & WSHS in discussion

2020 2021

• Empty surplus houses plan

Note in this option the total levy

- 1-year notice on rentals need to get out of rental business drain fields \$15 K
- Addition of 2 teachers to add Sunnyslope parents want to address overcrowding
- Sp ED needs additional space for more offerings
- Students using hallways for classrooms –find private space even if it can be shared
- Discussion on addressing class size: share rooms a possibility/more portables a solution –
- building pads would be necessary
- Columbia and WHS discussion on portables
- Lincoln/WSHS portables (which ones are wet, have plumbing installed)
- Air Quality HVAC system (Heating, Ventilation, Air Conditioning)
- Humidifier in pool area in great shape
- Co-Teaching may be worth looking into very complex: must look at Sp Ed situations, personality matching, styles of teaching & many more issues not a lot of bites so far
- Must look at bond & reserves to cover all expenditures

 GENERAL FUND With 50% of the fiscal year elapsed, Total General Fund revenues were 47.8% and expenditures were 46.4% of budgeted amounts, respectively.
 General Fund Total Fund Balance at February 29, 2016 is \$11,834,071(13.18%). Total Fund Balance at February 28, 2015 was \$11,721,411 (14.09%).

Districts are funded on budgeted numbers through December of each year. SPI adjusts funding to actual numbers (such as enrollment and staffing) beginning in January through the end of the year.

CAPITAL PROJECTS FUND The Month Ending Fund Balance is \$33,376,093.

WSD received an anonymous donation of \$1,000,000 to refurbish the district's baseball field at Rec Park. The new turf is in. Currently evaluating next phase of work.

Construction work continues for the Washington and Lincoln Elementary projects. Phase II (Wenatchee High School and other projects) planning is in process. WSD has purchased property for future expansion of the Wenatchee Valley Technical Skills Center. Awaiting results of Phase I environmental testing.

DEBT SERVICE FUND The Month Ending Fund balance of **\$1,365,976** is reserved for payment of bond principal and interest payments which are due each December and June. Revenues consist primarily of property taxes, which are levied annually to provide adequate funds for the bond payments.

The Debt Service levy for 2016 collection is 5,400,000 or 1.39 per 1,000 assessed value.

The M&O levy for 2016 collection is \$11,809,000 or \$3.05 per \$1,000 assessed value. The district's 2015 base assessed value to determine 2016 collection is \$3,888,868,880.

Re: Enrollment Reports for March 2016

Exhibit A - Monthly Enrollments.

The **March 2016** count of K-12 students is **7,912.90 full-time equivalents (FTE)** including 155.13 FTE Running Start students (Running Start students are counted starting in October).

The *average* FTE is **7,932.19** which are **3.19** FTE above budgeted *average* FTE of 7,929.

Running Start, Open Doors and Alternative Learning FTE are shown as separate line items for comparison to budget numbers on the F-195.

Exhibit B shows the changes in average FTE enrollment, as reported to SPI, since 2003-04. Exhibit B reflects the history of our actual state funding level of FTE.

Exhibit C is a restatement of enrollment from 2003-04 for comparability.

Kindergarten is restated based on headcount rather than FTE due to the state funding formula changes. All day kindergarten at Columbia has been BEA funded since 2007-08. All day kindergarten at Lewis & Clark, Lincoln, and Mission View has been BEA funded since 2008-09. Newbery Elementary has been BEA funded since 2013-14. Washington Elementary ADK is newly state funded for 2015-16.

The current Wenatchee Valley Technical Skills Center counts for grades 9-12 have been included in years prior to 09-10 for comparability. As a branch campus, Moses Lake enrollment is excluded from Wenatchee's count.

Exhibit D is a comparison of student FTE by school and by grade level for the current month and the same month in the prior year (2014-15).

Exhibit E shows the monthly information in graphic form, with a comparison to last year's (2014-15) actual enrollment and 2015-16 budgeted numbers.

Students believe the following obstacles prevent their use of technology at school

Why This Matters

Students are less engaged in learning when they perceive a negative impact from school rules, teacher behaviors or tech access (Project Tomorrow, 2012).

We need technology in every classroom and in every student and teacher's hand, because it is the pen and paper of our time, and it is the lens through which we experience much of our world."

College and Career Readiness for All- Early Learning

STRATEGY

Objective 4.3

College and Career Readiness for All: EARLY LEARNING

4.3.f. Increase awareness of our current Early Learning offerings (preschool at WA and WSHS).

4.3.g. Identify key components in district sponsored Early Learning Programs (Richland) Work with Early

Learning consultant (Erich Bolz) to develop a plan to support community wide efforts in Early Learning and create an action plan for Wenatchee School District's involvement in the process. (February 2016, March 31,

2016, June community stakeholder meeting to formulate a Early Learning Model for Chelan/Douglas region)

2016-17

4.3.h. Determine scope of district work around Early Learning

4.3.i. Determine the financial and human resources needed to implement a district plan for Early Learning

2017-18

4.3. Benchmarks will be developed following the study of the district action plan for Early Learning

What action steps or strategies need to be explored or developed to reach benchmarks?

- 4.3.a. Identify and arrange for district representation at September Summit.
- 4.3.b. Select and train staff, organize and advertise Ready! for Kindergarten sessions
- 4.3.c. Select and train staff, organize and advertise Kindergarten Readiness parent sessions
- 4.3.d. Plan breakout session for daycare providers at annual March Conference
- 4.3.e. Work with district PAC to schedule meeting topics regarding student achievement
- 4.3.f. Work with Special Ed preschool staff
- 4.3.g. Meet with Eric Bolz regarding their Early Learning program in Richland, WA
- 4.3 h,i District action plan developed and allocation of financial and human resources finalized.

Who needs to be involved in the planning discussion and action steps for this objective? Brian Flones, Nancy Duffey, Sarah Hanchey, Cynthia Valdez

What obstacles or barriers need to be addressed?

- Ready! for Kindergarten funding at this time is limited to migrant students. Expanding further would
- require additional district funds.
- Our current district staff is maximized. Broadening the scope of Early Learning projects within our district would require additional staff and resources.
- Insufficient district monies
- Unclear expectations regarding district support of Early Learning Community fragmentation around Early Learning projects (redundancy of services provided, different services serving same families, etc.)

What do employees need to be successful?

- A clear vision of district involvement
- Early Learning expertise
- Time, training and resources
- Knowledge of Early Learning work going on throughout the region

What measures need to be developed to monitor the outcomes of the objective benchmarks?

- Kindergarten readiness data (WaKids Assessment data that is easily accessed)
- Parent feedback following training sessions

District Dashboard Indicators:

Kindergarten Readiness- Percentage of students demonstrating readiness on the areas identified

on the Washington Kindergarten Inventory of Developing Skills (WaKids) Reading at Grade Level by 3rd Grade: Increase the percentage of third grade students reading at grade level to 90% by 2020. (Wonders benchmark assessments for reading)

Graduation Rate

Increase the graduation rate for on time and extended graduation to 90% by 2020.

College&CareerReadiness

College Transcript: percentage of students who complete high school graduation requirements and score at college ready on the Smarter Balanced Assessment for English Language Arts and Math. (90% completion rate by 2020)

Career Readiness: percentage of students who complete the college and career readiness curriculum (16 units) and *High School and Beyond* plan for graduation.

Early Learning Initiative: Board member, Laura Jaecks, gave a brief history of the Early Learning Initiative, a committee in which she has served.

A discussion followed with these points:

- Summary of Alan Walkers (United Way) lead in the initiative
- *"The Raising of America"* movie will also be run locally soon, it ran last year at the Snowy Owl Theater in Leavenworth, it shows a compelling case for investing in our children's early learning opportunities.
- WSD voice will be heard on this initiative as it moves forward.
- Eric Bolz will facilitate a meeting with community members to help us coordinate our focus. The meeting is on March 31^{st.}
- This initiative is focused in Chelan and Douglas Counties.
- We will define the roles the district will play in this initiative.
- Reaching the largest groups: parents, friends, neighbors, providers of these children, who (the children) are sometimes difficult to find before they enter school.
- Our role is to get the concept into the community to help us locate and find a means to prepare these children for school.

Brainstorming session about ways to increase awareness:

- Reach-out to other districts to see what their best efforts are and how they are running their pre-schools/and day care programs.
- Get Headstart and Epic programs involved in the initiative.
- Contact all medical facilities and nursing staffs to help us locate & recruit.
- Identify the medical community who has those connections we need.
- Prevention verses Reacting = Kindergarten is reaction / Birth to Kindergarten supports education (Prevention)
- We need to know we are reaching our children and helping to fill those gaps.
- There will be more movement in June on this initiative, Mr. Flones will keep the board informed

BOARD SELF ASSESSMENT:

For review and discussion Supt. Brian Flones provided the results from the Board Self-Assessment Survey and Workshop on 2/16/16.

What is the board's role in the four guiding strategies of Wenatchee Learns? ACTIONS reflect what the board will DO to support each strategy -

Design the personalized learning system of the future

- Needs to be a frame of reference or lens through which we view all of our work
- Board decisions should be linked to the appropriate strategy to show how they impact goals; this would also help the board prioritize issues and resources
- More focused with measurable, targeted goals (ends)
- Find appropriate balance between caution not to be overly ambitious and make too many changes at once with the need to define solid benchmarks/outcomes
- Progress has been made in the areas where defined outcomes have been clear
- The board needs feedback on whether the decisions/policies it makes are yielding desired results; if not, there needs to be an opportunity to review and adjust in a timely manner
- Staffing and facilities changes require the board's/superintendent's fiscal management and budgeting decisions
- Changing school schedules and investing in early learning are two examples of the potential need for different resources.

ACTIONS:

Creating a Data Dashboard that contains meaningful data points will help the board monitor progress in the district. Keeping the dashboard at the forefront in making decisions and allocating resources will help align board decisions with district goals.

STRATEGY: OBJECTIVES: Dashboard

Executive Sponsor - Cabinet

Benchmarks:

2015-16:

4.3a Identify the indicators to measure results and progress on the Wenatchee Learns vision for the Strategies and Objectives.

4.3b Create a data dashboard to track and monitor yearly progress on the results

indicators and provide trend data.

2016-17:

- 4.3b Implement the data dashboard with three-year trend data.
- 4.3c Develop a schedule to review and monitor data off the district dashboard with the school board, district leadership team, school staff, and community

 - Board invited to the data review meetings by Jodi Smith Payne, Assistant Supt. Of 0 Learning and Teaching.
 - First year is a tremendous learning experience
 - Students are walking into higher expectations aligned with Common Core
 - Next year a lot more rigor

Ron Brown, Director of Technology Learning, provided a demonstration of what the Tacoma School District is doing with their Data Dashboard. Mr. Ron Brown maneuvered the board through the site and made suggestions to the board for WSD's site. The board shared what they would like to see on our site.

- The board understands they will not be able to understand it all but would like to understand the processes and trends.
- We will come back and look at Tacoma and see what kind of response they are having with all this data available and how/if it impacts the public.
- Academic Rigor is important to follow
- Illuminate can do the charts needed to demonstrate the results we will be following currently but not a consistent way to follow
- Mr. Brown shared the challenges in following the data more closely, lack of manpower
- We have all the pieces, just not in one place to view
- The Deputy Supt. From Tacoma will be visiting in June, we will have more answers at that time.

Creating a Cohesive Team:

Two areas were identified where the board wants to invest time and effort to create a more cohesive board/superintendent team.

- 1. New board member orientation
- 2. Creating opportunities for board members to create connections and develop a dynamic team.

Superintendent Flones provided draft materials for the selection of a new board member to replace Jesús Hernández.

Columbia Portable - Bill Eagle, Columbia Elementary Principal

- At second grade there are 4 classrooms that funnel into three teachers. The district has approved hiring one more teacher to meet the state requirements.
- With the addition of one more teacher, more space is needed, adding a portable would solve the problem.
- Trisha Craig, Special Education Director explained that currently there are a lot of kids needing programs like the learning center at Washington.
 - Columbia alone has about 42-46 students who could use an alternative program but have been denied due to space. The opportunity to serve more students from Columbia and other students from outside Columbia's boundaries would be available if there were a portable.
 - The portable would be a two-room wet portable, which would free up a classroom inside the building and open more opportunity for the learning center.
- The board asked if 46 kids from Columbia needed services, how would this opportunity be available to other students?
 - Trisha Craig clarified that the program would potentially serve 18 students, most of them coming from pre-school, if there was space available it would be open to students outside of Columbia.
- The placement of the portable would have to be in the play area, on the west side.
 The board commented that there is a need to be fencing around it but also have access to the building.
 - The board asked for a location and report at another meeting.

VII. Special Presentations

School Health Clinics Tim Sheppard, Lincoln Elementary Principal, Kory Kalahar, WSHS Principal & Dr. Kristen Callison, WSD Mental Health Interventionist

- The partnership with Confluence Health will no longer be able to move forward at this time.
- Seeking a partnership with Columbia Valley Community Health, CVCH is looking into the partnership and the feasibility of such partnership; currently there is no timeframe for their response.
 - Having a partnership with CVCH would have higher benefits and incentives for them because of the population they serve.
- Children' Home Society is interested in developing more intentional plans, looking at Tier I program which is only offered to families that are involved with children. Administration funds for that only come through CPS.
 - With grant money those services can be offered to other kids also, looking to expand Readiness to Learn which is offered by CHS and having someone on site so kids and families can come to the building as often times, transportation could be a barrier.
- Would like to add other individualized mental health services starting with families who already receive services from CHS.
- Team met with the grant writer and the focus is on mental health. Currently waiting for the 'go ahead' to look at the different phases.
 - Proposed phase 1 and 2: Start in the fall 2016/winter 2017 with onsite mental health services.
- Need a dedicated space to be efficient, use one of the two portables that are currently at Lincoln but willing to use any space given.
 - The board brought up a security and safety concern regarding the new building.
- The board asked if phase I would be something during the day and at some point will also need something that can be accessed on weekends and evenings or is it an immediate need?
 - Mr. Sheppard's response that weekends and evenings is not an immediate need. Hoping that with the grant funding they would be able to add to the building or get a space.
- The board asked if phase II of the program would be open to other students rather than just Lincoln students.
 - Mr. Sheppard responded that initially it would only be opened to Lincoln students but would like to expand.

- The Board has a concern of telling parents outside of Lincoln that they cannot access these services.
- Mr. Sheppard mentioned that research shows that you want to help a facility that is 0 oriented to the school and develop a relationship with those staff.
- A board member stated that as a district, space is a struggle and it's hard to provide space for other things. Other questions to consider:
 - How is the service delivered? Does it require parent 0 involvement during the day?
 - What's the model? 0
 - 0 How is success tracked?
- Kory Kalahar mentioned that one of the catalysts of the work is because there are a lot of kids that need mental health and referrals are being made but the appointments are not. Therefore kids are not getting the services they need. This would ensure that kids get the services they need.
- Brian Flones asked how many students Children's Home Society and Readiness to Learn are serving?
 - Not sure of the number but Lincoln is the highest user of Readiness to Learn and Lincoln has the highest amount of kids in foster care.
- A grant can be used for programing, staffing and helping with remodel of space. Without the grant, services cannot be expanded. Mr. Sheppard mentioned that without space they would not be able to start.
- The district has a contract with Children's Home Society to serve students with Readiness to Learn, there are about 3-4 buildings that are utilizing those services.
- The board commended the team for what they are attempting to do and appreciate the work they do with families.
- Three years ago the idea was to have school based clinics at the high school where they would be able to serve more students. That student population would benefit more from such services.
- The school board asked for more data, cost and estimates. This will allow a memo of understanding to submit the grant.

Special Board Meeting 11:30 AM

Jennifer Talbot, Board President, opened the regular board meeting at 11:40 am with the Pledge of Allegiance.

Lead Auditor, Josiah Milner, thanked the board for attending the Exit Interview/Conference. He wanted the board to know that everyone the auditors worked with at WSD was very accommodating, friendly and helpful. WSD staff prioritized the requests from the auditors, which enabled them get their work done in a timely manner. The auditors present:

Josiah Milner, Audit Lead Brandi Pritchard, Audit Manager Stephanie Sullivan, Assistant Audit Manager Travis Beyer, Auditor

The board was provided the following documentation:

- State Auditor's Management Letter
- State Auditor's Exit Conference Report
- State Auditor's Exit Recommendations Document
- State Auditor's Audit Memorandum
- State Auditor's Accountability Audit Report & Audit Summary
- State Auditor's Financial Statements and Federal Single Audit Report

Audit Report:

Audit Highlights

- Staff was friendly and responsive during the audit, especially the Director of Accounting, Food Services Director and the Director of State and Federal Programs.
- Prior issues with suspension and debarment were resolved.
- District represents a good model of strong internal controls.

Audit Scope

We performed the following audits for Wenatchee School District:

- Accountability audit for 2015
- Financial statement audit for 2015
- Federal grant compliance audit for 2015

About the audit

This report contains the results of our independent accountability audit of Wenatchee School District No. 246 from September 1, 2014 through August 31, 2015.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

Our audit involved performing procedures to obtain evidence about the District's uses of public resources, compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, the areas examined were those representing the highest risk of fraud, loss, abuse, or noncompliance. The following areas were examined during this audit period:

- Career and technical education enrollment
- Financial condition
- Unemployment compensation program
- Donations

• Payroll/personnel

Exit Audit Recommendations:

Procurement (bidding)

1) Financial Audit:

- Related Party Transactions
- 3) Federal Grant Audit:
 - Title I P210 Transfers Out
- 3) Accountability Audit:
 - Deposits
 - Career and Technical Education (CTE)

*The management letter recommended the district establish and follow controls to ensure compliance with state procurement laws.

*Status of prior findings and management letter items were found to be resolved and the district is in compliance with federal suspension and debarment requirements.

Discussion points:

- KCDA and bid processes confusion by many districts in the state
- Apple Computer's bidding processes, they have come into compliance with school districts by working out contractors of their products and actual bid steps
- Employee businesses and usage of those businesses (conflict of interests) restraints are in place, accountability processes good
- Federal Grant audit and "transfer-out process" reviewed
- CTC teacher certification in area that instructors are teaching, formula issues
- Practices of Federal Programs pay-back not an issue at this point

Audit Cost

At the entrance conference, we estimated the cost of the audit to be \$43,000 and actual audit costs will approximate \$40,000.

Customer Service Survey

When your report is released you will receive a customer service survey from us. We value your opinions on our audit services and hope you provide feedback.

Your Next Scheduled Audit

Your next audit is scheduled to be conducted in 2017 and will cover the following general areas:

- Accountability for Public Resources
- Financial Statement
- Federal Programs

The estimated cost for the next audit based on current rates is \$36,000 plus travel expenses. This preliminary estimate is provided as a budgeting tool and not a guarantee of final cost. This is also based on an audit of three federal programs.

The auditors emphasized to the board that WSD is a really well run district, for the size and amount of activity that takes place on a daily basis here, there is very little for the auditors to recommend in changes. The board thanked them for the updates and audit.

MEETING ADJOURNED: President Talbot adjourned the meeting at 12:25 p.m.

INSTRUCTIONAL MATERIALS COMMITTEE ADOPTION RECOMMENDATIONS

The Instructional Materials Committee is recommending the Board approve the following material for district adoption.

THIS IS THE FIRST READING

Second reading will be on April 26 and approval will be recommended.

Big Ideas Math for Core Instructional Materials adoption. Authored by Ron Larson and Laurie Boswell. Published by Big Ideas Learning (2014-15). To be used in grades 6-8 and Algebra 1, Geometry, and Algebra 2 courses. The adoption of this comprehensive Mathematics program will benefit our students by providing them with quality resources as they learn and progress in their math skills. This program provides students with online access to lessons, learning activities, videos, and second language support. This program provides a balance of building conceptual understanding, procedural fluency, and real world application. Students will also be exposed to consistent instruction through the vertical alignment offered by this program. This adoption will also provide our staff with quality, research based resources to teach the skills and strategies supported by the math standards. The *Big Ideas Math* program is directly aligned to the Common Core State Standards for Mathematics. The use of these new programs will replace various outdated mathematics programs previously used.

Math 180 for Alternative Core Instructional Materials adoption. Published by Scholastic (2014). To be used in grades 6-8 for Math intervention. All three middle schools used *Math* 180 this year as a trial and principals have requested to continue using and expanding the program. *Math* 180 will provide students who are well below standard with an intensive curriculum and additional time to develop the foundational math skills they need in order to catch up to their peers.

Calculus, Early Transcendentals for Core Instructional Materials adoption. Authored by Jon Rogawski. Published by Freeman (2012). This resource will be used in a new course, Calculus 2 & 3 AB (a College in the High School course), which is being offered at Wenatchee High School. *Calculus, Early Transcendentals* is the same book that Wenatchee Valley College uses for teaching Calculus.

Ways of the World for Core Instructional Materials adoption. Authored by Robert W. Strayer. Published by Bedford St. Martin (2016). This resource is needed for a new course being offered at the high school level, AP World History. The program includes an online component and has many useful support materials for both students and teachers.

Various Curriculum Resources for Valley Academy for Alternative Core and Supplemental Instructional Materials adoption. Valley Academy utilizes a vast variety of curricular resources. Due to the nature of Valley Academy's flexible learning environment, instructional materials are chosen based on individual student learning goals, the grade level, content, and the diverse needs of the students they serve. Since these materials have become permanent resources over time that teachers utilize regularly, Valley Academy is seeking Board approval.

High School English Novels for Core Instructional Materials and Supplemental adoption. These novels are used in various English courses and have become permanent resources:

1984 by George Orwell A Tale of Two Cities by Charles Dickens All Quiet on the Western Front by Erich Maria Remarque Beowulf- A New Telling by Robert Nye Beowulf- A New Translation by Seamus Heaney Brave New World by Aldous Huxley Catcher in the Rye by JD Salinger Cold Mountain by Charles Frazier Frankenstein by Mary Shelley Great Expectations by Charles Dickens Hamlet by Shakespeare Harry Potter and the Sorcerer's Stone by JK Rowling Heart of Darkness by Joseph Conrad Inferno by Dante Macbeth by Shakespeare Mythology by Edith Hamilton Nectar in a Sieve by Kamala Markandaya Of Mice and Men by John Steinbeck One Day in the Life of Ivan Denisovich by Alexander Solzhenitsyn One Flew Over the Cuckoo's Nest by Ken Kesey Othello by Shakespeare Red Badge of Courage by Stephen Crane Tempest by Shakespeare The Adventures of Huckleberry Finn by Mark Twain The Chosen by Chaim Potok The Crucible by Arthur Miller The Grapes of Wrath by John Steinbeck The Great Gatsby by F. DISTRICT POLICY UPDATES

THIS GROUP OF POLICIES/PROCEDURES HAVE BEEN RECOMMENDED BY WSSDA FOR REVISIONS & Possible WSD Changes Added

Policy Series Review

Policy	Title	Suggested	District	Rationale
		Action	Recommendation	
3246	Restraint, Isolation and Other Uses of Reasonable Force	Essential	Approve	Restraint, Isolation and Force is no longer allowed in a student's IEP unless specifically needed for that child and may only be used to address spontaneous behavior with all students. This replaces policy 3247 – now obsolete.

Restraint, Isolation and Other Uses of Reasonable Force

It is the policy of the Wenatchee School Board of Directors that the district maintains a safe learning environment while treating all students with dignity and respect. All students in the district, including those who have an individualized education program (IEP) or plan developed under section 504 of the Rehabilitation Act of 1973, will remain free from unreasonable restraint, restraint devices, isolation, and other uses of physical force. Under no circumstances will these techniques be used as a form of discipline or punishment.

This policy is intended to address district students. It is not intended to prevent or limit the use of restraint or other reasonable force as necessary with adults or other youth from outside the district as allowed by law.

Restraint and other uses of physical force, as defined in this the procedure accompanying this policy, may be used when necessary to prevent or minimize imminent bodily injury to self or others. Restraint and other uses of physical force may be used to protect district property if de-escalation interventions have failed or are inappropriate.

Use of restraint, isolation, and other forms of reasonable force may be used on any student when reasonably necessary to control spontaneous behavior that poses an "imminent likelihood of serious harm" as defined by RCW 70.96B.010 and explained in the procedure accompanying this policy. Serious harm includes physical harm to self, another, or district property. Staff will closely monitor such actions to prevent harm to the student and will use the minimum amount of restraint and isolation appropriate to protect the safety of students and staff. The restraint, isolation, and other forms of reasonable force will be discontinued when the likelihood of serious harm has dissipated.

The superintendent or a designee will develop procedures to implement this policy, including review, reporting and parent/guardian notification of incidents involving restraint or isolation as required by law.

Affirmative Action

The district, as a recipient of public funds, is committed to undertake affirmative action, which shallwill make effective equal employment opportunities for staff and applicants for employment. Such affirmative action shallwill include a review of programs, the setting of goals and the implementation of corrective employment procedures to increase the ratio of aged, handicapped, ethnic minorities, women and Vietnam veterans who are under-represented in the job classifications in relationship to the availability of such persons having requisite qualifications. Affirmative action plans may not include hiring or employment preferences based on gender or race, including color, ethnicity or national origin. Such affirmative action shallwill also include recruitment, selection, training, education and other programs.

The superintendent shallwill develop an affirmative action plan which specifies the personnel procedures to be followed by the staff of the district and shallwill ensure that no such procedures discriminate against any individual. Reasonable steps shallwill be taken to promote employment opportunities of those classes that are recognized as protected groups — aged, handicapped, ethnic minorities and women and Vietnam veterans, although under state law racial minorities and women may not be treated preferentially in public employment.

This policy, as well as the affirmative action plan, regulations and procedures developed according to it, shallwill be disseminated widely to staff in all classifications and to all interested patrons and organizations. Progress toward the goals established under this policy shallwill be reported annually to the board.

Employment of Persons With Disabilities

In order to fulfill its commitment of nondiscrimination to those with disabilities, the following conditions shallwill prevail:

A. No qualified person with disabilities shallwill, solely by reason of a disability, be subjected Page to discrimination, and the district shallwill not limit, segregate or classify

any applicants for employment or any staff member in any way that adversely affects his/her opportunities or status because of a disability. This prohibition applies to all aspects of employment from recruitment to promotions and includes fringe benefits and other elements of compensation.

- B. The district shall will make reasonable accommodation to the known physical or mental limitations of an otherwise qualified disabled applicant or staff member unless it is clear that an accommodation would impose an undue hardship on the operation of the district program. Such reasonable accommodations may include:
- 1. Making facilities used by staff readily accessible and usable by persons with disabilities; and
- 2. Job restructuring, part-time or modified work schedules, acquisition or modification of equipment or devices, the provision of readers or interpreters and other similar actions.

In determining whether or not accommodation would impose an undue hardship on the district, factors to be considered include the nature and cost of the accommodation.

- C. The district shallwill not make use of any employment test or criteria that screens out persons with disabilities unless:
 - 1. The test or criteria is clearly and specifically job-related; and
 - 2. Alternative tests or criteria that do not screen out persons with disabilities are available.
- D. While the district may not make pre-employment inquiry as to whether an applicant has a disability or as to the nature and severity of any such disability, it may inquire into an applicant's ability to perform job-related functions.
- E. Any staff member who believes that there has been a violation of this policy or the law prohibiting discrimination because of a disability may initiate a grievance through the procedures for staff complaints.

Nondiscrimination for Military Service

The district will not discriminate against any person who is a member of, applies to be a member or, performs, has performed, applies to perform, or has an obligation to perform service in an uniformed service, on the basis of that participation in an uniformed service. This includes in initial employment, retention in employment, promotion, or any benefit of employment. The district will also not discriminate against any person who has participated in the enforcement of these rights under state or federal law.

SEXUAL HARASSMENT OF DISTRICT STAFF PROHIBITED

This district is committed to a positive and productive working environment free from discrimination, including sexual harassment. This commitment extends to all employees and other persons involved in academic, educational, extracurricular, athletic, and other programs or activities of the school, whether that program or activity is in a school facility, on school transportation, or at a class training held elsewhere.

Definitions

For purposes of this policy, sexual harassment means unwelcome conduct or communication of a sexual nature. Sexual harassment can occur student to adult, adult to adult or can be carries out by a group of students or adults and will be investigated by the District even if the alleged harasser is not a part of the school staff or student body. The district prohibits sexual harassment of district employees by other students, employees or third parties involved in school district activities.

Under federal and state law, the term "sexual harassment" includes:

- acts of sexual violence;
- unwelcome sexual or gender-directed conduct or communications that interferes with an individual's employment performance or creates an intimidation, hostile, or offensive environment;
- unwelcome sexual advances;
- unwelcome requests for sexual favors;
- sexual demands when submission is a stated or implied obtaining work opportunity or other benefit;
- sexual demands where submission or rejection is a factor in a work or other schoolrelated decision affecting an individual.

A "hostile environment" for an employee is created where the unwanted conduct is sufficiently severe or pervasive to create a work environment that a reasonable person would consider intimidation, hostile, or abusive.

Investigation and Response

If the district knows, or reasonably should know, that sexual harassment has created a hostile environment, the district will promptly investigate to determine what occurred and will take appropriate steps to resolve the situation. If an investigation reveals that sexual harassment has created a hostile environment, the district will take prompt and effective steps reasonably calculated to end sexual harassment, eliminate the hostile environment, prevent its occurrence and, as appropriate, remedy its effects. the district will take prompt, equitable and remedial action within its authority every time a report, complaint and grievance alleging sexual harassment comes to the attention of the district, either formally or informally. Allegations of criminal misconduct will be reported to law enforcement and suspected child abuse will be reported to law enforcement or Child Protective Services. Regardless of whether the misconduct is reported to law enforcement, school staff will promptly investigate to determine what occurred and take appropriate steps to resolve the situation to the extent that such investigation does not interfere with an on-going criminal investigation. A criminal investigation does not relieve the district of its independent obligation to investigate and resolve sexual harassment.

Engaging in sexual harassment will result in appropriate discipline or other appropriate sanctions against offending staff or third parties involved in school district activities. Anyone else who engages in sexual harassment on school property or at school activities will have their access to school property and activities restricted, as appropriate.

Retaliation and False Allegations

Retaliation against any person who makes or is a witness in a sexual harassment complaint is prohibited and will result in appropriate discipline. The district will take appropriate actions to protect involved persons from retaliation.

It is a violation of this policy to knowingly report false allegations of sexual harassment. Persons found to knowingly report or corroborate false allegations will be subject to appropriate discipline

Staff Responsibilities

The superintendent will develop and implement formal and informal procedures for receiving, investigating and resolving complaints or reports of sexual harassment. The procedures will include reasonable and prompt time lines and delineate staff responsibilities under this policy.

Any school employee who witnesses sexual harassment or receives report, informal complaint, or written complaint about sexual harassment is responsible for informing the district's Title IX or Civil Rights Compliance Coordinator. All staff are also responsible for directing complainants to the formal complaint process.

Reports of discrimination and discriminatory harassment will be referred to the district's Title IX/Civil Rights Compliance Coordinator. Reports of disability discrimination or harassment will be referred to the district's Section 504 Coordinator.

Notice and Training

The superintendent will develop procedures to provide information and education to district staff, parents and volunteers regarding this policy and the recognition and prevention of sexual harassment. At a minimum, sexual harassment recognition and prevention and the elements of this policy will be included in staff and regular volunteer orientation. This policy and the procedure, which includes the complaint process, will be posted in each district building in a place available to staff, parents, volunteers and visitors. Information about the policy and procedure will be clearly stated and conspicuously posted throughout each school building, provided to each employee and reproduce in each staff, volunteer and parent handbook. Such

notices will identify the District's Title IX coordinator and provide contact information, including the coordinator's email address.

Policy Review

The superintendent will make an annual report to the board reviewing the use and efficacy of this policy and related procedures. Recommendations for changes to this policy, if applicable, will be included in the report. The superintendent is encouraged to involve staff, volunteers and parents in the review process.
