

Agenda Items

1. What are your thoughts on the draft of the building goal?

Draft Goal:

To achieve 95% or higher graduation rate beginning with the class of 2019 with a specific emphasis during the year around 9th grade and 10th grade students being on track to graduate with interventions focused on reducing failure rates.

More reasonable than last years goal

Allows more teachers to participate

2. What feedback can you share about your experience with Fall conferences in 2017? What input would you like to share with LIT for their conversation on Fall conferences for 2018.

Three days was a little long – more parents on days 1 and 2

Can we have 2 and 2 or just take away one fall day

Good – not during deer season

Nice to not have to make the transition from teaching to conferences

No extra long day in the spring please

3. What feedback can you share about your experience with the 1st semester finals schedule in 2017? What input would you like to share with LIT for their conversation on the 1st semester finals schedule for 2018.

Please don't schedule so that you see classes after already given them their final

Leave it up to the teacher

Maybe it is ok if a student has 4 finals in a day

Can we revisit these issues in a more timely matter? We don't even remember!

After open house tomorrow – can we revisit that structure for next year? Try to avoid the mini conference thing.
