

LIT Small Group Feedback

Almost everyone was in attendance... a lovely group of people (will miss them).

Conferences?

- It was so long ago. Feedback in a more timely manner would be better.
- Three days is an awfully long time...
- Do we have any stats about number of parents vs. the year before or before that? Trends?
- What do parents think?
- That lonnnngggg day in the Spring was.....LONNNNGGGGGG. Hopefully we will not do THAT again.

Fall Finals?

no real comments or suggestions...just do not like to see the class after the Final has been given

BUILDING GOAL

All in my LIT group would like building goal to be tied to LEARNING not credits for Grad Rate although we all understand how much that is worth on the Matrix.

Some felt that 91% was already awesome so why not make the goal (if it is going to be tied to Grad Rate) not be such a huge increase...why not "reasonable" growth?

What about focusing on something to do with learning....

The Goal Statement could be more concise and easier to understand.

Do we mean to start with the class of 2019 when Interventions are for the 2021?
