

Procedure - *Wenatchee High School* Graduation Requirements

I. PUBLICATION OF GRADUATION REQUIREMENTS

Prior to registering in high school and each year thereafter, each student and his or her parents or guardians will be provided with a copy of the graduation requirements in effect for that student (those in effect when the student enrolled in ninth grade). Graduation requirements may also be included in the student handbook.

II. CREDIT REQUIREMENTS

Period of Eligibility to Earn Credits

Generally, credit towards high school graduation will be earned in grades nine through twelve. However, unless requested otherwise by the student and the student's family, the district will award high school credit towards fulfilling graduation requirements to a student who has completed high school courses while in seventh or eighth grade if one of the following applies:

- A. The course was taken with high school students, and the student successfully passed the same course requirements and examinations as the high school students enrolled in the class; or
- B. The course taught at the middle school level has been determined by the district to be similar or equivalent to a course taught at the high school level.

Students who have taken and successfully completed high school courses under the above circumstances shall not be required to take an additional mastery/competency examination or perform any other additional assignment to receive credit.

Awarding of High School Credit

The district will award high school credit for successful completion of a specified unit of study.

A student successfully completes a specified unit of study by doing one of the following:

- A. Earning a passing grade according to the district's grading policy;
- B. Demonstrating proficiency or mastery of content standards as determined by the district (the district will establish a process for determining proficiency or mastery for credit bearing courses of study); or
- C. Successfully completing an established number of hours of planned instructional activities to be determined by the district.

Credits from Other Programs

The principal or designee is responsible for determining which credits will be recognized by the district for students enrolling from another state approved learning program (public school, approved private school, or home school), or from out-of-state, or out-of-country. The district will accept credits from another Washington public school or accredited state private school or accredited out-of-state public or private school to the extent the credit matches a district graduation requirement, or may be counted as an elective credit. The district will evaluate credits from unaccredited programs or home schools as described below for home school students.

Decisions of the principal or designee may be appealed to the superintendent or designee within fifteen school days of the initial decision.

CREDIT REQUIREMENTS for Wenatchee High School:

Class of:	2021 and on
<i>Entering 9th grade after July 1 of:</i>	<i>2017 and on</i>
English	4
Mathematics	3
Science	3
Social Studies	3
Arts	2
Health & Fitness	2*
Career and Tech Ed	2
World Language	2**
Electives	9
Total Required Credits:	30

- + The number of elective credits required will be prorated based on the amount of time a student has spent at WHS.

**Per Chapter 28A.231 RCW, each school district must offer instruction in cardiopulmonary resuscitation (CPR) in at least one health class required for graduation. The CPR instruction must have been developed by the American Heart of Association or the American Red Cross or be nationally recognized based on the most current national guidelines for CPR. The instruction must include use of automated external defibrillators (AED) which may be taught by video. The district may provide the CPR instruction directly or arrange it through community-based providers such as the local fire department. Students are not required to earn CPR certification for successful completion of the instruction.*

***Both credits may be a Personalized Pathway Requirement (PPR).*

Additional credit information for Class of 2021 and beyond

Credit requirements conform to Career & College-Ready Graduation requirements.

Math (3 credits required)

The following courses are required: Algebra 1 or Integrated Math 1, Geometry or Integrated Math 2 and a third credit of math chosen by the student based on the student's interest and High School and Beyond Plan and approved by the parent or guardian. If the parent or guardian is unavailable or does not indicate a preference, the school counselor or principal will approve the course.

A student may substitute a computer science course aligned to state computer science learning standards as an alternative to a third year of mathematics so long as:

- A. Before substituting the mathematics course, the counselor provides the student and the student's parent/guardian with written notification of postsecondary consequences due to the substitution;
- B. The student, the student's parent or guardian, and the school principal or counselor agree to the substitution;
- C. The substitution aligns with the student's high school and beyond plan; and
- D. The student has not already substituted a third-year science course for a computer science course.

Science (3 credits required)

At least two (2) labs are required and a third credit of Science chosen by the student based on the student's interest and High School and Beyond Plan and approved by the parent or guardian. If the parent or guardian is unavailable or does not indicate a preference, the school counselor or principal will approve the course.

A student may substitute a computer science course aligned to state computer science learning standards as an alternative to a third year of science so long as:

- A. Before substituting the mathematics course, the counselor provides the student and the student's parent or guardian with written notification of postsecondary consequences due to the substitution;
- B. The student, the student's parent or guardian, and the school principal or counselor agree to the substitution;
- C. The substitution aligns with the student's high school and beyond plan; and
- D. The student has not already substituted a third-year mathematics course for a computer science course.

Social Studies (3 credits required)

The following are required: one credit of U.S. History and 0.5 credits of Civics (content may be embedded in another social studies course until the Graduating class of 2024 and beyond. A stand alone Civics .5 credit will then be displayed on a transcript for graduation); an additional 1.5 credits of Social Studies electives are required: Contemporary World History, Geography, Contemporary Problems. Courses in economics, sociology, civics, political science, international relations, or related courses with emphasis on contemporary world problems may be accepted as equivalencies. Washington State History will be completed in the 7th grade year in the Wenatchee School District.

Arts (2 credits required)

Performing or visual arts is required. One (1) credit may be a **Personalized Pathway Requirement**, defined as a related courses that lead to a specific post-high school career or educational outcome chosen by the student and based on the student's interests and High

School and Beyond Plan, which may include Career and Technical Education, and are intended to provide a focus for the student's learning.

World Language (2 credits)

Both credits may be a Personalized Pathway Requirement. If the student has chosen a four-year degree pathway in their High School and Beyond Plan, the student will be advised to earn 2 credits in world language. WestSide High School does not have a stand alone World Language program.

Career and Technical Education (2 credits required - Class of 2024 and on)

One credit may be any CTE course that meets the definition of an exploratory course as described in the [CTE program standards](#). The second credit must come from a course designated as satisfying the financial literacy requirement. A student may also satisfy this credit requirement by completing a business program of study, or by taking and earning a score of 80% or better on the identified challenge exam (Precision Exams - Financial Literacy).

Alternative Programs

The district may grant credit toward graduation requirements for planned learning experiences primarily conducted away from the facilities owned, operated, or supervised by the district.

A proposal for approval of out-of-school learning activities will be submitted prior to the experience, will be at no additional cost to the district, and will include at least the following information:

- A. The name of the program or planned learning experience;
- B. The length of time for which approval is desired;
- C. The objective(s) of the program or planned learning experience;
- D. The state learning goals and related state learning standards are part of the program or planned learning experience;
- E. A description of how credits will be determined in accord with WAC 180-51-050(1);
- F. The content outline of the program and/or major learning activities and instructional materials to be used;
- G. A description of how student performance will be assessed;
- H. The qualifications of instructional personnel;
- I. The plans for evaluation of program; and
- J. How and by whom the student will be supervised.

The district will keep a list of approved programs on file in the superintendent's office. The superintendent or designee will communicate the reasons for approval or disapproval to those making the request.

Running Start

The Running Start program allows high school juniors and seniors to attend community college classes (100 level or above) for part or all of their schedule. Students must be of junior standing or above to be eligible for the program. Students earn college credit, which is also converted and applied to their high school transcript.

In order to enroll in the Running Start program, students need to do the following:

- A. Contact the Running Start office (<https://wvc.edu/apply/future-students/running-start/qualifications.html>) at Wenatchee Valley College and work with their high school counselor to determine eligibility.
- B. Speak with their counselor to assess credits needed for graduation, then decide which courses they would like to take at the college. Note that part-time Running Start students will need to coordinate college classes so that they do not interfere with their high school classes. Full-time Running Start students will not be enrolled in courses at the high school, even when the community college they attend is not in session.
- C. Obtain a Running Start authorization form from the college or their high school counselor. The counselor will sign the form after the student completes their portion. A parent signature is required if the student is under 18 years old.
- D. Take the authorization form to the college and register for classes. Once the classes are completed, the college will notify the high school and credits will be added to the student's transcript.

Credit for Career and Technical Work-Based Learning

The district regards work experience as a part of the educational program of students as part of the secondary school curriculum rather than just a device to relieve a staffing shortage. The district may grant credit for work experience based upon the following factors:

- A. The school will supervise the work program.
- B. The work experience will specifically relate to the student's school program.
- C. The work experience will represent growth in the student, and the type of work will have definite educational value.
- D. The work experience will provide a varied job experience.
- E. The career placement counselor will supplement the work experience with an adequate program of guidance, placement, follow-up, and coordination between job and school.
- F. The work experience may be a planned part of the credit given for a school subject (e.g., sales training class).
- G. The district may grant one credit for not less than one hundred eighty hours for instructional work based learning experience and not less than three hundred sixty hours of cooperative work based learning experience related to a student's school program. Alternatively, the district may grant one credit on a mastery/competency basis as provided under WAC 180-51-050 (1)(b).
- H. The employer will legally employ the student who must have passed his or her sixteenth birthday.
- I. The employer will file a report of the student's work record with the school, indicating the student made satisfactory progress on the job.
- J. The regular state apprenticeship program and school cooperatively develop the student's training, which meets graduation requirements standards.
- K. The program standards and procedures align with the state career and technical work based learning standards.

National Guard High School Career Training

The district may grant credit for National Guard high school career training in lieu of either

required or elective high school credits. Approval by the district will be obtained prior to a student's participation in a National Guard training program as follows:

- A. MIL Form 115 or an equivalent form provided by the National Guard will be completed and filed with the school district; and
- B. The number of credits toward high school graduation to be granted will be calculated, agreed upon by the student, and an authorized representative of the school district, and such agreement noted on MIL Form 115 or such equivalent form
- C. The district may grant credit toward high school graduation upon certification by a National Guard training unit commander that the student has met all program requirements.

College in the High School

The college in the high school program is a dual credit program located on a high school campus or in a high school environment in which a high school student may earn both college credit and high school credit by achieving a passing grade in a college level course. A college in the high school program will be governed by a local contract which will include qualifications for students to enroll in the program. Additionally, applicable information regarding students in the program includes the following:

- A. Students who have not yet received a high school diploma, and are eligible to be in the ninth, tenth, eleventh or twelfth grades may participate in the high school in the college program. Students will receive credit for the courses they complete. If a student completes a course for which there is not a comparable course with the District, then an administrator will determine how many credits the student will receive for the course. Such a determination shall be issued in writing by an administrator prior to the student beginning the course.
- B. Students may be required to pay a tuition fee to receive college credit for a course. Students will not be required to pay a tuition fee for high school credit.

Home School Credit

Guidelines for granting high school credit for home schooling are as follows:

- A. To gain credit for a course of study, a student will provide the following:
 1. A journal that reflects the actual work completed during a home-study course of study;
 2. Exhibit(s) of any specific projects completed (e.g., themes, research papers, art and/or shop projects); or
 3. Any such other performance-based exhibits of specific course-related accomplishments.
- B. To gain credit for a course of study, a student must demonstrate proficiency at a minimum of 80 percent of the objectives of the course. Such testing will be available as an ancillary service of the district if it is regularly available to all students. If not, the parent may engage district-approved personnel to conduct such an assessment at a cost determined by such personnel.
- C. Credit is granted for the following approved schools:
 1. Community colleges, vocational-technical institutes, four-year colleges and

- universities, and approved private schools in the state of Washington, and
2. Other schools or institutions that are approved by the district after evaluation for a particular course offering.

III. HIGH SCHOOL AND BEYOND PLAN REQUIREMENT

Each student must have a high school and beyond plan to guide the student's high school experience and inform course taking that is aligned with the student's goals for education or training and career after high school.

A. Plan Development

Beginning by the seventh grade, each student will be administered a career interest and skills inventory, which is intended to inform eighth-grade course scheduling and the development of an initial high school and beyond plan.

No later than eighth grade, each student must have begun development of a high school and beyond plan that includes a proposed plan for first-year high school courses aligned with graduation requirements and secondary and postsecondary goals.

By ninth grade, each student who has not earned a score of level 3 or 4 on the middle school mathematics assessment identified in RCW 28A.655.070 must have the high school and beyond plan updated to ensure the student takes a mathematics course in both the ninth and tenth grades. These courses may include career and technical education equivalencies in mathematics adopted pursuant to 28A.230.097 and district policy.

With staff support, students must update their high school and beyond plan annually, at a minimum, to review academic progress and inform future course taking. The high school and beyond plan must be updated in 10th grade to reflect high school assessment results in RCW 28A.655.061, ensure student access to advanced course options per the district's academic acceleration policy, assess progress toward identified goals, and revised as necessary for changing interests, goals, and needs.

For students who have not met the standard on state assessments or who are behind in completion of credits or graduation pathway options will be given the opportunity to access interventions and academic supports, courses, or both, designed to enable students to meet all high school graduation requirements. The parents or legal guardians shall be notified about these opportunities as included in the student's high school and beyond plan, preferably through a student-led conference that includes the parents or legal guardians, at least annually until the student is on track to graduate.

For students with an individualized education program, the high school and beyond plan must be developed and updated in alignment with their school to postschool transition plan. The high school and beyond plan must be developed and updated in a similar manner and with similar school personnel as for all other students.

The district will involve parents and legal guardians to the greatest extent feasible in the process of developing and updating the high school and beyond plan. The plan will be provided to the student and students' parents or legal guardians in a language the student and students' parents or legal guardians understand and in accordance with the district's language access policy and procedures, which may require language assistance for students and parents or legal guardians with limited English proficiency.

The district will annually provide students in grades eight through twelve and their parents or legal guardians with comprehensive information about the graduation pathway options offered by the district. The district will begin to provide this information beginning in sixth grade. The district will provide this information in accordance with the district's language access policy and procedures.

The district may partner with student-serving, community-based organizations that support career and college exploration and preparation for postsecondary and career pathways. Partnerships may include high school and beyond plan coordination and planning, data sharing agreements, and safe and secure access to individual student's high school and beyond plans.

B. Components of the High School and Beyond Plan

All high school and beyond plans must, at a minimum, include the following elements:

1. Identification of career goals and interests, aided by a skills and interest assessment;
2. Identification of secondary and postsecondary education and training goals;
3. An academic plan for course taking that:
 - a. Informs students about course options for satisfying state and local graduation requirements;
 - b. Satisfies state and local graduation requirements;
 - c. Aligns with the student's secondary goals, which can include education, training, and career preparation;
 - d. Identifies available advanced course sequences per the District's academic acceleration policy, that include dual credit courses or other programs and are aligned with the student's postsecondary goals;
 - e. Informs students about the potential impact of their course selections on postsecondary opportunities;
 - f. Identifies available career and technical education equivalency courses that can

satisfy core subject area graduation requirements under RCW 28A.230.097;

- g. If applicable, identifies career and technical education and work-based learning opportunities that can lead to technical college certifications and apprenticeships; and
 - h. If applicable, identifies opportunities for credit recovery and acceleration, including partial and mastery-based credit accrual to eliminate barriers for on-time grade level progression and graduation per RCW 28A.320.192;
 - i. evidence that the student has received the following information on federal and state financial aid programs that help pay for the costs of a postsecondary program:
 - j. The college bound scholarship program established in chapter 28B.118 RCW, the Washington college grant created in RCW 28B.92.200, and other scholarship opportunities;
 - k. The documentation necessary for completing state and federal financial aid applications; application timelines and submission deadlines; and importance of submitting applications early;
 - l. Information specific to students who are or have been the subject of a dependency proceeding pursuant to chapter 13.34 RCW, who are or are at risk of being homeless, and whose family member or legal guardian will be required to provide financial and tax information necessary to complete applications;
 - m. Opportunities to participate in advising days and seminars that assist students and, when necessary, their parents or legal guardians, with filling out financial aid applications in accordance with RCW 28A.300.815; and
 - n. A sample financial aid letter and a link to the financial aid calculator created in RCW 28B.77.280.
5. By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, extracurricular activities, and any community service including how the district has recognized the community service.

IV. GRADUATION PATHWAY OPTIONS

A student may choose to pursue one or more of the pathway options described below to demonstrate career and college readiness as long as the option chosen is in alignment with the student's high school and beyond plan.

The district will provide annual notice, in a way that conforms with Board Policy 4218 – Language Access to students in grades eight through twelve and their parents or legal guardians with comprehensive information about the graduation pathway options offered by the district.

Statewide High School Assessment

A student may demonstrate career and college readiness by meeting or exceeding the graduation standard established by the State Board of Education on the statewide high school assessments in English language arts and mathematics.

Dual Credit Courses

A student may demonstrate career and college readiness by completing and qualifying for college credit in dual credit courses in English language arts and mathematics. A dual credit course is a course in which a student qualifies for college and high school credit upon successfully completing the course.

High School Transition Courses

A student may demonstrate career and college readiness by earning high school credit in a high school transition course in English language arts and mathematics. A high school transition

course is a course offered in high school where successful completion by a high school student ensures the student college-level placement at participating institutions of higher education as defined in RCW 28B.10.016. High school transition courses must satisfy core or elective credit graduation requirements established by the State Board of Education.

AP Courses and International Baccalaureate Programs

A student may demonstrate career and college readiness by meeting the requirement of A or B below in the AP courses in English language arts or mathematics that the state board of education designates as eligible to be used to meet this standard:

- A. Earning high school credit with a grade of C+ or higher in each term in the eligible AP English language arts (AP microeconomics, AP psychology, AP United States history, AP world history, AP United States government and politics, AP comparative government and politics, and any of the international baccalaureate individuals and societies courses) or mathematics course (AP statistics, AP computer science, AP computer science principles, AP calculus, and any of the international baccalaureate mathematics courses) or
- B. Earning at least the minimum score of three on advanced placement exams.

SAT or ACT Scores

A student may demonstrate career and college readiness by meeting or exceeding the scores established by the state board of education for the mathematics portion and the reading, English, or writing portion of the SAT or ACT.

Combination of Options

A student may demonstrate career and college readiness by meeting any combination of at least one English language arts option and at least one mathematics option described above.

Armed Services Vocational Aptitude Battery

A student may demonstrate career and college readiness by meeting standard in the armed services vocational aptitude battery by scoring at least the minimum established by the military for eligibility to serve in a branch of the armed services at the time the student takes the assessment. The state board of education will post eligibility scores on its website at least annually by September 1st.

Career and Technical Education Courses

A student may demonstrate career and college readiness by completing a sequence of career and technical education courses that are relevant to a student's postsecondary pathway that meet either the curriculum requirements of core plus programs for aerospace, maritime, health care, information technology, or construction and manufacturing; or the minimum criteria identified in RCW 28A.700.030.

Expedited Appeal Process for Waiving Student Assessment Requirements

For the graduating classes of 2014, 2015, 2016, 2017, 2018, 2019, and 2020, an expedited appeal process for waiving specific requirements in RCW 28A.655.061 pertaining to the certificate of

academic achievement and the certificate of individual achievement is available for eligible students who have not met the state standard on the English language arts statewide student assessment, the mathematics high school statewide student assessment, or both. The student or the student's parent, guardian, or principal may initiate an appeal with the district and the district has the authority to determine which appeals to submit to the superintendent of public instruction for review and approval.

A student in the class of 2014, 2015, 2016, or 2017 is eligible for the expedited appeal process if he or she has met all other graduation requirements established by the state and district.

A student in the class of 2018 is eligible for the expedited appeal process if he or she has met all other graduation requirements established by the state and district and has attempted at least one alternative assessment option as established in RCW 28A.655.065.

This expedited appeal process will no longer be available after August 31, 2022.

V. STUDENTS WITH AN INDIVIDUALIZED EDUCATION PROGRAM (IEP)

A student's IEP team must determine whether the graduation pathway options described above are appropriate for the student. Expiring with the class of 2021, if the IEP team determines that those options are not appropriate, then the student must earn a certificate of individual achievement to graduate. A certificate of individual achievement may be earned by using multiple measures to demonstrate skills and abilities commensurate with the student's IEP.

The following process will be followed to help a student with an IEP graduate:

- A. By the age of 14, the student will participate with the IEP Team (including a special education teacher, general education teacher, parents, student, and other school personnel and agency representatives who will assist the student in achieving the goals of the IEP) in a discussion of transition service needs that focuses on the student's course of study.
- B. As an outcome of the discussion, the IEP will include appropriate graduation requirements based on the student's individual needs and abilities consistent with the student's transition plan. Modifications to the district's standard graduation requirements may include:
 1. Attainable alternate classwork or individualized activities substituted for standard requirements;
 2. An extension of time for the student to remain in school to complete graduation requirements. The student may remain in school up to and including the school year in which the student reaches twenty-one years of age.
- C. The student will, in cooperation with his or her parent or guardian and the IEP team, determine:
 1. The projected date by which all graduation requirements will be met; and
 2. The projected date and conditions under which the student will participate in the graduation ceremony.
- D. The student will have an IEP that incorporates all issues and decisions from the above procedures. Any decision that modifies the district's standard graduation requirements will

be made through the IEP process. Annually or as needed, the IEP will be reviewed or revised to accommodate the student's progress and development.

VI. SEAL OF BILITERACY

To be awarded the Washington Seal of Biliteracy, graduating high school students must meet the following criteria:

- A. Demonstrate proficiency in English by (1) meeting statewide minimum graduation requirements in English as established by the Washington State Board of Education and (2) meeting state standards on the reading and writing or English language arts assessment; and
- B. Demonstrate proficiency in one or more world language. For purposes of this section, "world language" is defined as a language other than English, including American Sign Language, Latin, and Native American or other indigenous languages or dialects. The fact that a language is not written is not a barrier to receive the Seal of Biliteracy. Proficiency may be demonstrated by one of the following methods:
 1. Passing a foreign language Advanced Placement exam with a score of 3 or higher;
 2. Passing an International Baccalaureate exam with a score of 4 or higher;
 3. Demonstrating intermediate-mid level or higher proficiency on the American Council on Teaching of Foreign Languages (ACTFL) guidelines using assessments approved by OSPI for mastery/competency-based credits; and demonstrating proficiency using reading assessments approved by OSPI (when developed);
 4. Qualifying for four mastery/competency-based credits by demonstrating proficiency in speaking, writing, and reading the world language at intermediate-mid level or higher on the ACTFL proficiency guidelines according to Policy 2409, Credit for Competency-Proficiency; or
 5. Demonstrating proficiency in speaking, writing, and reading the world language through other national or international assessments approved by OSPI. OSPI and the federally recognized Tribes in Washington have a language proficiency system in place to determine tribal language proficiency with students for the Seal of Biliteracy.

VII. GRADUATION CEREMONIES

If students fulfill graduation requirements by the end of the last term of their senior year and they have no outstanding fines or fees, they may participate in graduation ceremonies. Each student will be awarded a diploma after satisfactorily completing local and state requirements. Upon request, each graduating student will receive a final transcript. Each student will be notified of this opportunity at least one month prior to the close of the school term.

Any student receiving services under an IEP who will continue to receive such services between the ages of 18 and 21 will be allowed to participate in the graduation ceremonies and activities after four years of high school attendance with his or her age-appropriate peers and receive a certificate of attendance.

The district will allow students who are members of a federally recognized tribe to wear traditional tribal regalia or objects of Native American cultural significance along with or attached to a gown at the graduation ceremony or related school event. Additionally, the district will not require such students to wear a cap if it is incompatible with the regalia or significant object they have chosen to wear. Otherwise, the district has discretion to determine the conduct for graduation ceremonies as described below.

Graduation ceremonies will be conducted in the following manner:

- A. In order to participate in the graduation ceremony students must have no outstanding fines or fees.
- B. Each participating student must participate in the graduation ceremony rehearsal. Each student who participates will purchase or rent the proper cap and gown as designated by the school administration and the class advisor and officers.
- C. With the exception of allowing tribal regalia as stated above, caps and gowns will be worn in the proper manner, as designated by the school administration and class advisor.
- D. Students who participate will use good taste in their choice of accessories for their attire.
- E. Each student who participates will cooperate with the class advisor and participate in all parts of the graduation ceremonies.
- F. Failure to comply with the above requirements may forfeit a student's privilege to participate in the graduation ceremonies.

VIII. AWARDING DIPLOMAS POSTHUMOUSLY

At the request of a parent, guardian, or custodian, the district may issue a high school diploma to a deceased student if the student:

- Was enrolled in a public school in the district at the time of death
- Was deemed on-track to graduation before the time of death; and
- Died after matriculating into high school.

The high school diploma will bear the inscription "honoris causa" and may not be issued before the graduation date of the class in which the student was enrolled. The district is not required to award the diploma at the same ceremony or event as other students. The district may retroactively issue high school diplomas posthumously at its discretion.

IX. WITHHOLDING OF A DIPLOMA

The district may withhold a student's diploma based on the student's damage to property in accordance with Board Policy 3250 – Student Fees, Fines, or Charges. Any student discipline will be in accordance with Board Policy 3241 - Student Discipline. Student discipline may include denying the student's participation in graduation ceremonies. Such exclusion from graduation ceremonies is regarded as a school suspension. In such instances, the district will grant the diploma.

Adoption Date: 9.03

Classification: Essential

**Revised Dates: 12.00; 10.04; 12.04; 08.07; 02.09; 05.11; 02.12; 5.13; 12.13; 12.15; 08.17;
