# Unfortunately, the converse can be devastating.

# Important take-away #1---

Teachers  
matter  
immensely!

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# To Remember...

*“Although it is unreasonable to expect all teachers to reach the lofty status of the 90<sup>th</sup> percentile or higher regarding their pedagogical skills, it is reasonable to expect ALL teachers to increase their expertise from year to year.”*

*Effective Supervision, 2011*

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Discussion

New learning, unlearning,  
relearning?

**Marzano Research Laboratory**  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# The Nature of Expertise

*Individuals can dramatically increase their performance through education and training if they have the necessary drive and motivation.*

# Expertise ≠ Talent or Intelligence

## ■ Determiners:

- Well-articulated knowledge base for teaching
- Focused feedback and practice
- Opportunities to observe and discuss expertise
- Clear criteria and a plan for success
- Recognition of expertise

# Expertise ≠ Talent or Intelligence

## ■ Determiners:

### ■ Well-articulated knowledge base for teaching

- Focused feedback and practice
- Opportunities to observe and discuss expertise
- Clear criteria and a plan for success
- Recognition of expertise

**Student Achievement**

**Teacher Pedagogical Skill**

**Supervision**

## Domain 4: Collegiality & Professionalism

STUDENT ACHIEVEMENT

Domain 1: Classroom strategies & behaviors

Domain 2: Planning & preparing

Domain 3: Reflecting on teaching

# Wenatchee Docs

## Lesson Segments Involving Routine

### #1 High Expectations for Student Achievement

- 1.2 Provides clear learning goals and scales
- 1.3 Celebrates student success

### #5 Safe, Positive Learning Environment

- 5.1 Organizes a safe physical layout of the classroom to facilitate movement and focus on learning
- 5.2 Reviews expectations regarding rules and procedures to ensure their effective execution

### #6 Student Data

- 6.3 Provides opportunities for students to self-reflect and track progress toward learning goals.

## Lesson Segments Addressing Content

### #2 Effective Teaching Practices

- 2.1 Helps students effectively interact with new knowledge
  - 2.1.1 Identifies critical information
  - 2.1.2 Organizes students in small groups to facilitate the processing of new knowledge
  - 2.1.3 Helps students to link prior knowledge to new content
  - 2.1.4 Chunks content into "digestible bites"
  - 2.1.5 Breaks presentation of content and engages students in processing new information
  - 2.1.6 Through questions or activities, students elaborate on new information
  - 2.1.7 Students record and represent knowledge in linguistic and/or nonlinguistic ways
  - 2.1.8 Students reflect on their learning and the learning process

- 2.2 Helps students to practice and deepen knowledge

## Lesson Segments Enacted on the Spot

### #1 High Expectations for Student Achievement

- 1.1 Understanding students' interests and backgrounds (positive relationships)
- 1.4 Demonstrates value and respect for all, including typically underserved students

### #2 Questioning Research-based Instructional Practice

- 2.4 Asks questions of typically underserved students with the same frequency and depth as other students
- 2.5 Probes typically underserved students' incorrect answers

### #2 Effective Teaching Practices

- 2.6 Engages Students
  - 2.6.1 Notices when students are not engaged
  - 2.6.2 Uses academic language

# Four Domains for a Common Language of Teaching

Domain 4: Collegiality & Professionalism

Domain 1

ACHIEVEMENT

Domain 1: Classroom strategies & behaviors

Classroom  
Strategies  
&  
behaviors

Dom

aring

Dom

aching

At the level of planning,  
*The Art & Science of Teaching*  
involves 10 “design questions”  
teachers ask of themselves as they  
plan a unit of instruction. Pg. 4

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# *The Art and Science of Teaching Handout, Page 4*

1. Learning goals and feedback
2. Interacting with new knowledge
3. Practicing and deepening
4. Generating and testing hypotheses
5. Engaging students
6. Establishing rules and procedures
7. Adhering to rules and procedures
8. Developing teacher–student relationships
9. Maintaining high expectations

At the level of **observing teaching**,  
*The Art & Science of Teaching*  
sheds light on three fundamental  
segments of classroom instruction.

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Fundamental Segments of Classroom Lessons

- Segments that are routine components of every lesson
- Content specific lesson segments
- Segments that must be enacted on the spot

# *The Art and Science of Teaching*

**SEGMENTS ENACTED  
ON THE SPOT**

**ROUTINE SEGMENTS**

**CONTENT-SPECIFIC  
SEGMENTS**

**Marzano Research Laboratory**  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

**SEGMENTS ENACTED ON THE SPOT**

Student Engagement

**ROUTINE SEGMENTS**

Learning Goals and Feedback  
Rules and Procedures

**CONTENT SPECIFIC SEGMENTS**

Interacting  
with New  
Knowledge

Practicing  
and  
Deepening

Generating/  
Testing  
Hypotheses

Teacher/Student Relationships

Adherence to Rules and Procedures

High Expectations

The fundamental questions that any observer must ask are:

What am I observing right now?

How is it going? Based on what evidence?

~~Should observations try to calculate the presence or absence of specific “high yield” strategies?~~

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Domain 2

## Pg. 18

Planning & preparing

...for lessons and units

...for use of materials & technology

...for special needs of students

# DOMAIN 2

## Planning & Preparing, Page 18

- Criterion 3 (3.1, 3.2)
- Criterion 4 (4.1, 4.2)
- Criterion 6 (6.1, 6.2)

# Domain 3

## Pg. 19

Reflecting  
on teaching

Evaluating  
personal  
performance

Developing &  
implementing a  
professional  
growth plan

# Domain 3

## Reflecting on Teaching

- Criterion 2 (2.8)
- Criterion 8 (8.4)

# Becoming a Reflective Teacher

**Marzano Research Laboratory**  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Domain 4

## Pg. 20

### Collegiality & Professionalism

Promoting exchange of ideas and strategies

Promoting a positive environment

Promoting district & school development

# Domain 4

## Collegiality & Professionalism

- Criterion 7 (7.1, 7.2)
- Criterion 8 (8.1, 8.2, 8.3)

# Collegiality and Professionalism

“While collegiality and professionalism are thought of as a school characteristic, they are actually a function of individual teacher actions. That is, it is the responsibility of individual teachers and administrators to develop an atmosphere of collegiality and professionalism.”

# New Skill: Riding a Bike

## (2 wheels)

- With table family:
  - What are the necessary skills/strategies one needs to ride a bike.
    - Create a list.

# Video:

Watch the video and check off the components from your list that you see.

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Reflection...

*Did the checklist work?*

*What would be more helpful?*

*How would you provide  
feedback?*

# Focused Feedback & Practice

*“In the absence of feedback, efficient learning is impossible and improvement only minimal even for highly motivated subjects. Hence, mere repetition of an activity will not automatically lead to improvement.”*

*Effective Supervision, 2011*

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Focused Feedback

*“Feedback that involves too many elements or is too broad has little influence.”*

*Effective Supervision, 2011*

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# What must a district or school do?

Pg. 21

- Develop a common language of teaching
- Provide opportunities for focused feedback and practice 
- Provide opportunities for observing and discussing effective teaching
- Require individual teacher growth and development plans on a yearly basis

# A Hierarchy of Data Types

**Less  
intrusive**

Teacher self-perception data  
Teacher self-observation data  
Observational data from  
peers, instructional  
coaches, and supervisors

**More  
intrusive**

# A Hierarchy of Data Types

**Less  
intrusive**

**Teacher self-perception data**

**Observational data from  
peers, instructional  
coaches, and supervisors**

**More  
intrusive**

Teachers score themselves on a rubric or scale for the various components of the model

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

## *Generic Format of Scales for Domain 1*

<i><b>UNSATISFACTORY</b></i>	<i><b>BASIC</b></i>	<i><b>PROFICIENT</b></i>	<i><b>DISTINGUISHED</b></i>
<i>Strategy was called for but not exhibited OR uses strategy incorrectly or with parts missing.</i>	<i>Engages students in the strategy with no significant errors or omissions.</i>	<i>Engages students in the strategy and MONITORS the extent to which it produces the desired outcomes.</i>	<i>Adapts and creates new strategies for unique students needs and situations.</i>

# A Hierarchy of Data Types

Less  
intrusive

Teacher self-perception data

Teacher self-observation data

Teacher self-observation data from peers,  
instructional coaches, and  
supervisors

More  
intrusive

# Teachers score a videotape of their own lesson.

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# A Hierarchy of Data Types

**Less  
intrusive**

**Teacher self-perception data**

**Observational data from  
peers, instructional coaches,  
and supervisors**

**More  
intrusive**

**practical applications**

**synthesized data**

**inspired professional development**

Observational data from  
peers, instructional  
coaches, supervisors

Walk-throughs  
(mini-observations)

Comprehensive  
observations

Cueing teaching

Student surveys

Observational data from  
peers, instructional  
coaches, supervisors

Walk-throughs  
(mini-observations)

Comprehensive

(Arguably) Walk-  
Throughs Are the Most  
Common Form of  
Feedback to Teachers

Student surveys

# (A couple of) Basic Assumptions Underlying Walk-Throughs

- Frequent feedback is beneficial to teachers
- Identification of “high-yield” strategies has made it possible to identify effective teaching more easily

# (The Problem with) Basic Assumptions Underlying Walk-Throughs

- Frequent feedback is beneficial to teachers.

~~(Walking in with a checklist: *if I see it, that's good, if I don't see it, that's bad.*)~~

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# (A couple of) Basic Assumptions Underlying Walk-Throughs

- Frequent feedback is beneficial to teachers
- Identification of “high-yield” strategies has made it possible to identify effective teaching more easily

# (The Problem with) Basic Assumptions Underlying Walk-Throughs

- Frequent feedback is beneficial to teachers.
- Identification of “high-yield” strategies has made it possible to identify effective teaching more easily.

There are no such things as “high yield” strategies. There are only “high probability” strategies.

What is clearly needed is a robust model of teaching as the basis of feedback to teachers...

*that does not simply assume all research-based instructional strategies should be present in every lesson.*

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Walk-Throughs

- Two Purposes:
  - Feedback to Individual Teachers
  - To Provide Aggregate Data for the Entire Faculty

Observational data from  
peers, instructional  
coaches, supervisors

Walk-throughs  
(mini-observations)

Comprehensive  
observations

Cueing teaching

Student surveys

# Comprehensive Observations

- Set up with a preconference
- Focus on specific elements of effective teaching
- Last the entire period or majority of it
- Good for feedback regarding deliberate practice

Observational data from  
peers, instructional  
coaches, supervisors

Walk-throughs  
(mini-observations)

Comprehensive  
observations

Cueing teaching

Student surveys

# Cueing Teaching

- Focus on struggling teachers
- Specific areas of needed improvement
- Preconference-Cueing-Post conference

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

Observational data from  
peers, instructional  
coaches, supervisors

Walk-throughs  
(mini-observations)

Comprehensive  
observations

Cueing teaching

Student surveys

# What is the role of student feedback regarding effective instruction?

Students complete surveys regarding the use of specific instructional strategies and their effectiveness.

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Sample Student Questions

*Completely Disagree (1)  
to Completely Agree (5)*

1      2      3      4      5

- The learning goals in this class are clear to me.
- My teacher provides consistent feedback to me about my performance.
- I can use the feedback my teacher provides to me to help improve my performance.
- I am asked to record and reflect on my progress toward learning goals.
- My teacher notices when students do well.

# BRAIN BREAK

*Stand up and **STRETCH** while you discuss if/how you ask for feedback from students.*

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# What must a district or school do? Pg. 22

- Develop a common language of teaching
- Provide opportunities for focused feedback and practice
- Provide opportunities for observing and discussing effective teaching ↩
- Require individual teacher growth and development plans on a yearly basis

# Opportunities to Observe and Discuss Effective Teaching

- Instructional rounds
- Expert coaches
- Expert videos
- Teacher-led PD
- Virtual communities

# Instructional Rounds

**Marzano Research Laboratory**  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

Instructional Rounds

- Teams of teachers (3 to 5 on the team) led by lead teacher
- Can be short or long in duration
- Primary focus is for observers to compare and contrast their practice with observed practice
- May or may not be used to provide feedback to observed

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

Instructional Rounds

- School or district's observational protocols used for recording
- Observers record perceptions immediately after leaving the observed teacher's classroom

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

## Debriefing:

- Comments should not be shared
- Suggestions should not be made to observed teachers unless requested
- Nothing observed within a lesson should be shared with anyone
- Observed teachers should be thanked and acknowledged for opening their classrooms

Instructional Rounds

- Ideally, every teacher should have a chance to participate in instructional rounds at least once per semester
- Teachers who are observed are typically volunteers, drawn from the pool of master teachers in a building

# Opportunities to Observe and Discuss Effective Teaching

- Instructional rounds
- Expert coaches
- Expert videos
- Teacher-led PD
- Virtual communities

# Expert Coaches

- Should be done by experts as opposed to peers.
- Requires specific technical feedback.
- Coaches seek to pass on their expertise to other teachers.

# *Coaching Effective Instruction*

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Expert videos

District provides clips of expert performance  
(from the ranks of expert coaches)

Ambady and Rosenthal's  
“thin slices of behavior”

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Teacher-led PD

as the “consultant”

Preferred Norm: teachers within the district or school conducting workshops and seminars (healthy mixture of in-district and out of district support)

...and faculty meeting Gallery Walks, or...

Reeves’ “teacher science fair”

# Virtual communities

## Virtual PLC's

Asynchronous responses to the problem of time: discussion forums or “threads”

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# Cross-Town Buddy

*Share one new learning,  
unlearning, or  
relearning thus far...*

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# What must a district or school do? Pg. 22

- Develop a common language of teaching
- Provide opportunities for focused feedback and practice
- Provide opportunities for observing and discussing effective teaching
- Require individual teacher growth and development plans on a yearly basis 

# Professional Growth & Development Plans

- Area of need is identified.
- A goal is established to address the need.
- Action is taken to address the need.
- After a period of time, the results are determined.
- Primary Goals: Domain 1
- Secondary Goals: Domains 2, 3, 4

# In Summary...

*The more skilled the teacher,  
the greater the students'  
achievement.*

# Today's Vocabulary Word

## Itinerant

**Marzano Research Laboratory**  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

# First Rating:

<b>Level 4:</b>	I can define it and explain its meaning to someone else.
<b>Level 3:</b>	I have a good sense of the meaning of the word when I see it or hear it.
<b>Level 2:</b>	I'm a little uncertain about what the term means, but I have a general idea.
<b>Level 1:</b>	I'm very uncertain about the term. I really don't understand what it means.

# Itinerant

**Synonyms:** *traveler, wanderer, vagrant, migratory, mobile, moving...*

Marzano Research Laboratory  
Powered by Solution Tree

practical applications

synthesized data

inspired professional development

**Marzano Research Laboratory**  
Powered by Solution Tree

**practical applications**

**synthesized data**

**inspired professional development**

# Itinerant

**Noun:** *A person who travels from place to place with no fixed home*

**Adjective:** *roaming, traveling from place to place*

# Second Rating:

<b>Level 4:</b>	I can define it and explain its meaning to someone else.
<b>Level 3:</b>	I have a good sense of the meaning of the word when I see it or hear it.
<b>Level 2:</b>	I'm a little uncertain about what the term means, but I have a general idea.
<b>Level 1:</b>	I'm very uncertain about the term. I really don't understand what it means.

# Itinerant

- Write your own description, explanation, or example for **itinerant**.
- Construct a nonlinguistic representation (a picture, symbol, or graphic) for **itinerant**.

# Elbow Partner

- Compare your descriptions of the term
- Describe your pictures to one another
- Identify areas of disagreement or confusion

# Third Rating:

<b>Level 4:</b>	I can define it and explain its meaning to someone else.
<b>Level 3:</b>	I have a good sense of the meaning of the word when I see it or hear it.
<b>Level 2:</b>	I'm a little uncertain about what the term means, but I have a general idea.
<b>Level 1:</b>	I'm very uncertain about the term. I really don't understand what it means.

# A Six-Step Process for Teaching New Terms

- **Step 1: Provide a description, explanation, or example of the new term**
- **Step 2: Ask students to restate the description, explanation, or example in their own words**
- **Step 3: Ask students to construct a picture, symbol, or graphic representing the term or phrase.**

# A Six-Step Process for Teaching New Terms (cont.)

- **Step 4: Engage students periodically in activities that help them add to their knowledge of the terms in their notebooks.**
- **Step 5: Periodically ask students to discuss the terms with one another.**
- **Step 6: Involve students periodically in games that allow them to play with terms.**

# Two-Column Note Review

**Left Hand Column:** Record information that you found interesting from the content-specific segment.

**Right Hand Column:** Record your reactions, questions, and extended ideas related to the left-hand column.

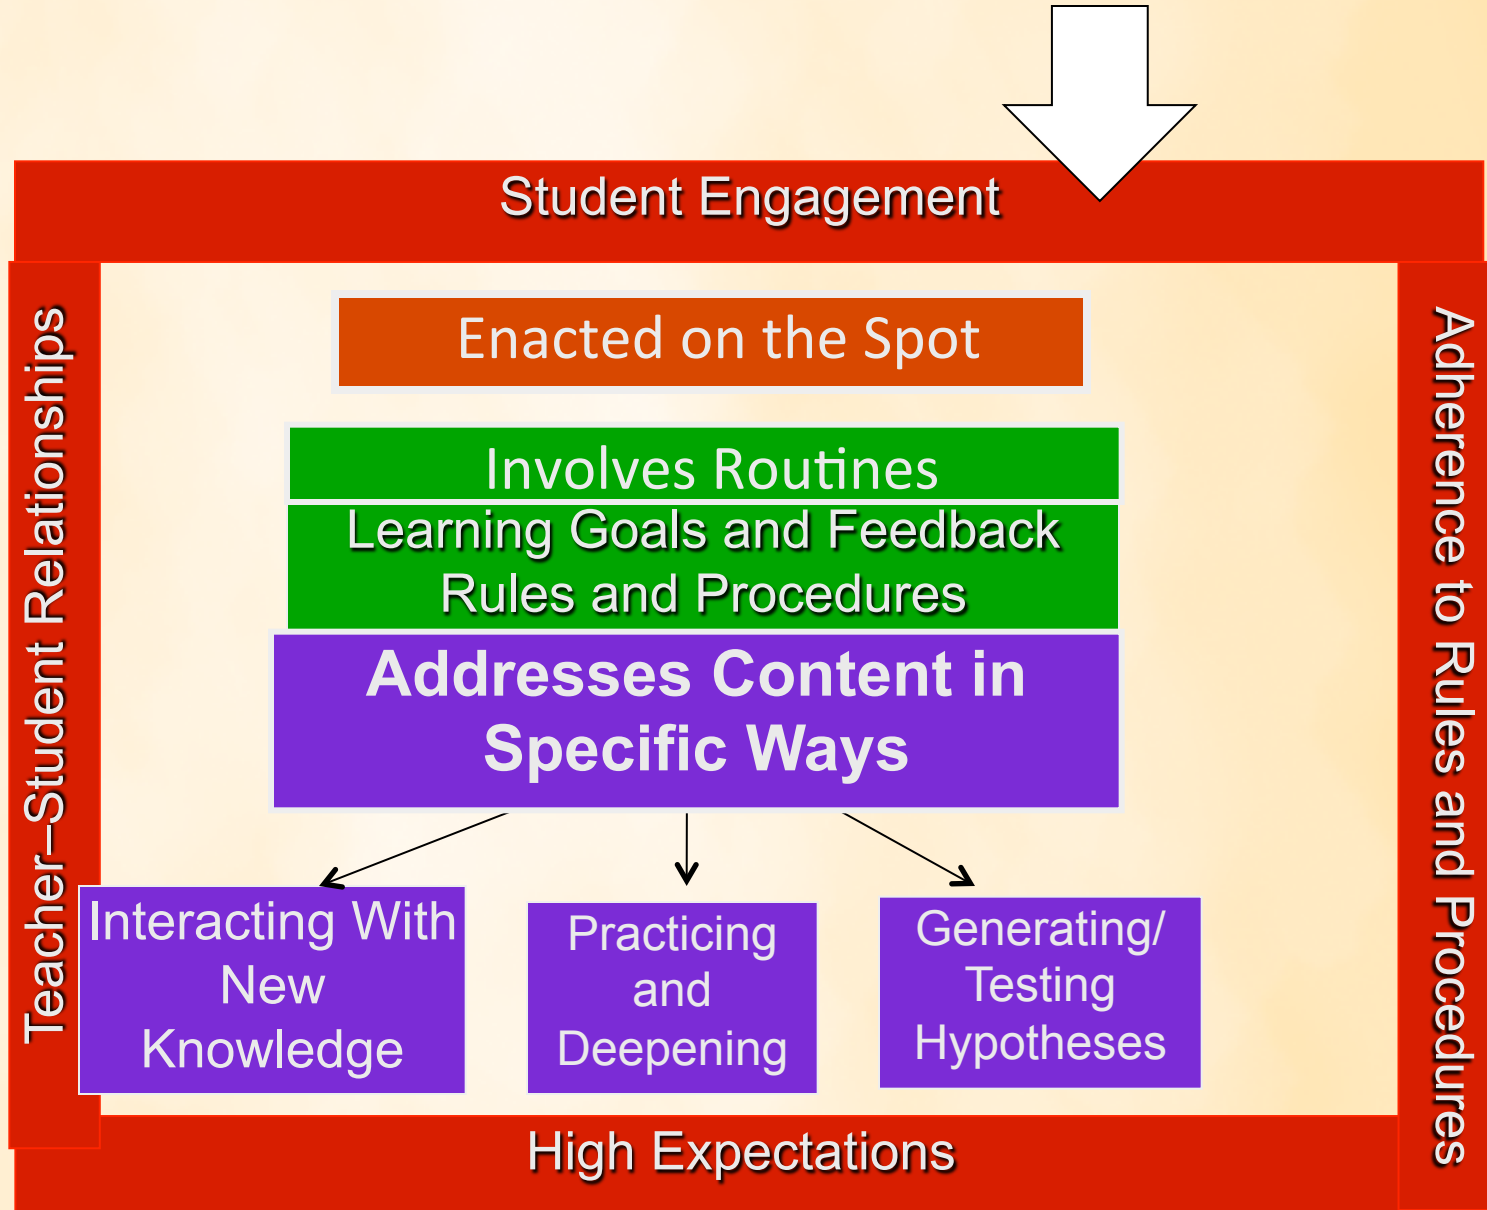

# SEGMENTS ENACTED ON THE SPOT

## Page 12

- Student Engagement 2.6
- Adherence to Rules & Procedures 5.3, 5.4, 5.5
- Relationships 1.3, 5.6
- High Expectations 1.4, 2.4, 2.5

# *The Art and Science of Teaching*

# Engagement Strategies

- Elements for Component 2.6:
  - Noticing
  - Games
  - Response Rates
  - Physical Movement
  - Pacing
  - Intensity & Enthusiasm
  - Friendly Controversy
  - Students Talk About Themselves
  - Unusual Information

# Unusual Information

*Did you know:*

- Thirty-one percent of employees skip lunch entirely.
- The 1912 Olympics was the last Olympics that gave out gold medals that were made entirely out of gold.
- Take your height and divide by eight. That is how tall your head is.

# *A few more...*

- The first product to have a bar code was Wrigley's gum.
- Three percent of pet owners give Valentine's Day gifts to their pets.
- Venus is the only planet that rotates clockwise.

# SEGMENTS ENACTED ON THE SPOT, *DOMAIN 1*

- ~~Student Engagement 2.6~~
- Adherence to Rules & Procedures 5.3,  
5.4, 5.5 ↩
- Relationships 1.3, 5.6
- High Expectations 1.4, 2.4, 2.5

# Table Family Discussion

*Review the  
Action Steps  
on page 15 and  
share your expertise...*

# Discussion Question

How would you rate your  
withitness?

Good?

Ok but can be improved?

Poor?

# Withitness...

In the next slide, count the number of F's.

# Mix-and-Mingle

- When the music is playing, you're mingling.
- When the music stops, pair up with one or two other people and discuss the question on the screen.
- We will conduct three rounds.

# Round 1

- Share 1-2 strategies you use to consciously build positive relationships with students.

# Round 2

- Share 1-2 strategies you use with students who are 'more difficult to love.'

# Round 3

- Share a memory you have of a teacher who made an effort to forge a positive relationship with you (or one who didn't).

# Please Head Back to Your Seat...

*(You can boogie back if you'd like...)*

Add any take-aways to page 17.

# High Expectations

- *Component 1.4: Demonstrating Value and Respect for All/Typically US Students*
- *Component 2.4: Asking Questions of All/Typically US Students*
- *Component 2.5: Probing Incorrect Answers with Typically US Students*

# Top four sources of expectations about new students

Dusek & Gail (1983)

- Cumulative folder (previous info about students)
- Social class
- Physical attractiveness
- Race

*It is difficult, if not impossible, for a person to change his or her thinking about students. Yet it is entirely possible to change behavior toward students so that all students receive the same behavior in terms of affective tone and quality interactions.*

# Working with ALL students:

## ASOT Book Pgs. 167-173

- Identify which students
- Identify differential treatment
- Use verbal and nonverbal messages
- Ask questions
- Stay with them

# Consciously and Systematically

- Engage in the following behaviors:
  - Make eye contact frequently
  - Smile at appropriate times
  - Make appropriate contact (hand on shoulder)
  - Maintain proximity (interest)
  - Engage in playful dialogue

# Stay with them...

- Demonstrate gratitude for response
- Do not allow negative comments from other students
- Point out what is correct/incorrect
- Restate the question
- Provide ways to temporarily let students off the hook
