

Healthy smiles start young

Healthy Start for Kids makes it easy to keep growing smiles healthy

Did you know tooth decay is the most common chronic childhood illness? Fortunately, it's easily preventable with good daily hygiene and regular dental check-ups.

We recognize that second step can be a bit tricky to maintain sometimes. We want to make it as easy as possible for you to set your child on the path to a lifelong, healthy smile.

That's why we've developed Healthy Start for Kids. It's a **pilot benefit offering for children through age 14**. It **removes many of the financial barriers** that make it hard for you to get the dental care your child needs.

Here's how:

100% coverage for most dental service

That's right! Class I, II, and III services are covered at 100% which means you have no out-of-pocket costs when your child visits a Delta Dental network dentist. These services include cleanings, exams, fillings, and crowns. Orthodontia and TMJ coverage remain at the plan's coverage level.

No deductible and no annual maximum

There's no upfront costs before coverage begins. There's also no cap to the amount of money your plan will pay towards your child's dental care for Class I, II, and III dental services.

Greater access to dental care

Your plan gives your child access to the Delta Dental PPOSM network. Their benefits go farthest when they visit a Delta Dental PPO dentist, ensuring you have no out-of-pocket costs. Your child also gets access to the Delta Dental Premier[®] network. It's kind of like a safety net in case you're unable to find a PPO dentist in your area.

Review your benefit booklet and summary for complete details.

Have a question?

Give us a call at 800.554.1907, Monday – Friday from 7am to 5pm, Pacific Time. We're happy to help.
