

Culinary Arts

Students who complete 2 credits in this pathway will meet their state graduation pathway through the CTE Sequence option.

The **Culinary Arts Program of Study** will prepare students for a variety of jobs within the food service industry. Students will learn the importance of nutrition and how to prepare meals with quality macronutrients and micronutrients in mind. Students will learn how to make a variety of dishes while studying techniques, methods, and cuisine from our world. Students will learn basic cooking and food preparation skills, as well as more advanced skills needed for work in a food service job, catering business, or a dietary aid in a health-related career.

Is this program a fit for you?

- Enjoy being creative, expressive, and imaginative
- Enjoy cooking and learning by working with your hands
- Have attention to detail and precision in your work
- Are interested in getting a job in the food industry or continuing training in the Culinary Arts
