

Fashion & Interior Design

Students who complete 2 credits in this pathway will meet their state graduation pathway through the CTE Sequence option.

The **Fashion & Interior Design Program of Study** allows students to learn the concepts of art and design and apply them to these careers. The hands-on, project-based classes allow students to work independently and in teams to create works of art in apparel, homes, and businesses. Students can learn how to create a product from design to material selection, to prototype to final production.

Is this program a fit for you?

- Enjoy creativity and design
- Like working with materials to create products and spaces
- Comfortable working with technology to design and create
- Interested in creating products or appealing spaces for people
