

Giacomazzi LIT small group notes

Conference schedule: disappointed in real lack of options, but more people voted for option 2. Emphasized that this is the last time we'll have this schedule.

Reviewed communications norms and procedure for adding items to agenda.

Finals schedules/other special schedules:

- Will there be a special finals schedule?
- Whatever the schedule will be, we'd like it announced soon.
- Schedules that deviate from the norm (other than snow days) should be announced at the beginning of the year. Assemblies should fit in the allotted time rather than scheduling time to fit assemblies.

CTE Water fountains:

- This request doesn't seem to fit within our parameters. Why bother with guidelines if we don't follow them?
- Presenting options outside of established parameters puts people in an awkward position.

LIT funds designated for clubs through ASB:

- Concern that there is no control or input.
- Funds have been denied without explanation.
